DELIVERY

Delivery takes, on average, between 6-7 weeks for soft long leather riding boots and 8-10 weeks for dressage boots (where the production process takes 3 weeks longer). All boots are handmade to Celeris exacting standards and sadly we can't rush this process. Delivery may well be sooner, but we cannot

promise this. It is sometimes possible to expedite an order, where boots are required for a special occasion or event, but please enquire when ordering.

FITTING

Celeris boots are uniquely bespoke and both the foot and leg are made-to-measure - 24 measurements are taken to ensure a supreme fit. No standard sizes are used in the production of Celeris boots and each leg will be made individually to your exact measurements. Your boots will then be tailored to your exact requirements.

We can arrange fittings in London, Surrey, Kent and Hampshire and many clients visit our office in Surrey for fittings.

SUPPLYING YOUR OWN MEASUREMENTS

Where a client cannot attend a formal fitting, we can provide a full step-by-step, measurement-by-measurement guide. We have supplied many boots for clients, using our guides, and all the boots have been a perfect fit. We are on hand to help via telephone and Skype and all measurements are thoroughly checked before orders are submitted.

Postage for delivery is approximately £25 within the UK. Please request a shipping quote if living outside of the UK.
